Hood College WiFi Access Guide

Quick Access:
- Select the secure@hood wireless network
- Enter the hood college email address and password
- Select to Trust the certificate

Manual
- Open the secure@hood.edu configuration screen, and use the following settings
  - NOTE: If the default value is same as the value below, leave it as it is
  - EAP Method: **PEAP**
  - Phase2 Authentication: **MSCHAPv2**
  - CA Certificate: **None**
  - Identity: **<your_hood_email_address>**
  - Password: **<your_hood_password>**
- Save the configuration

None of those above worked
- Try using the visitor@hood wireless network (no password required)
- Try using the android@hood.edu wireless network (contact the IT Helpdesk for instructions)
